

Linux Rapid Embedded Programming

Yocto Project (redirect from Yocto linux)

for embedded and IoT software that are independent of the underlying architecture of the embedded hardware. The project was announced by the Linux Foundation...

Linux kernel

many of which are called Linux. One such Linux kernel operating system is Android which is used in many mobile and embedded devices. Most of the kernel...

Linux

management in general. Linux distributions support shell scripts, awk, sed and make. Many programs also have an embedded programming language to support...

Linux Foundation

The Linux Foundation (LF) is a non-profit organization established in 2000 to support Linux development and open-source software projects. The Linux Foundation...

Embedded system

system. It is embedded as part of a complete device often including electrical or electronic hardware and mechanical parts. Because an embedded system typically...

Windows CE (redirect from Windows Embedded Edition)

known as Windows Embedded CE and Windows Embedded Compact, is a discontinued operating system developed by Microsoft for mobile and embedded devices. It was...

Python (programming language)

supports multiple programming paradigms, including structured (particularly procedural), object-oriented and functional programming. Guido van Rossum...

Ring (programming language)

general-purpose programming language. It can be embedded in C/C++ projects, extended using C/C++ code or used as a standalone language. The supported programming paradigms...

Delphi (software) (redirect from Delphi programming language)

is a general-purpose programming language and a software product that uses the Delphi dialect of the Object Pascal programming language and provides...

Coreboot (redirect from Linux BIOS)

Ryzen Embedded or Intel Atom processor on the car computer, and adopted coreboot as the bootloader.[citation needed] Coreboot typically loads a Linux kernel...

Gambas (redirect from Gambas programming language)

dialect of the BASIC programming language, and an integrated development environment that accompanies it. Designed to run on Linux and other Unix-like...

LiveCode (redirect from Transcript (programming language))

cross-platform rapid application development runtime system inspired by HyperCard. It features the LiveCode Script (formerly MetaTalk) programming language...

Scripting language (redirect from Script (computer programming))

language can be a general-purpose programming language or a domain-specific language for a given environment. When embedded in an application, it may be called...

Euphoria (programming language)

Euphoria is a programming language created by Robert Craig of Rapid Deployment Software in Toronto, Ontario, Canada. Initially developed (though not publicly...

IBM Informix-4GL (category Fourth-generation programming languages)

intermediate byte code for an interpreter (known as the rapid development system), or 2) C Programming Language code for compilation with a C compiler into...

Android 16 (section Embedded photo picker)

Google expanded the "Linux Terminal" feature, which was initially introduced in Android 15 QPR2 beta, allowing users to run Linux applications within a...

Linux adoption

Linux adoption is the adoption of Linux-based computer operating systems (OSes) by households, nonprofit organizations, businesses, and governments. Android...

CompactRIO (category Programmable logic controllers)

can be programmed with LabVIEW, National Instruments's graphical programming language; C; C++; or Java. LabVIEW must be used to program the embedded FPGA...

Borland Kylix (redirect from Kylix programming tool)

low-level programming, such as the development of device drivers or kernel modules.[citation needed] Though it interacts poorly with many Linux window managers...

Tcl (redirect from Tcl (programming language))

functional, and procedural styles. It is commonly used embedded into C applications, for rapid prototyping, scripted applications, GUIs, and testing....
