Many Problem

Assignment problem

assignment problem is a fundamental combinatorial optimization problem. In its most general form, the problem is as follows: The problem instance has...

Many-body problem

The many-body problem is a general name for a vast category of physical problems pertaining to the properties of microscopic systems made of many interacting...

Problem of universals

The problem of universals is an ancient question from metaphysics that has inspired a range of philosophical topics and disputes: "Should the properties...

N-body problem

In physics, the n-body problem is the problem of predicting the individual motions of a group of celestial objects interacting with each other gravitationally...

List of NP-complete problems

thousands of such problems known, this list is in no way comprehensive. Many problems of this type can be found in Garey & Johnson (1979). Graphs occur frequently...

Travelling salesman problem

The problem was first formulated in 1930 and is one of the most intensively studied problems in optimization. It is used as a benchmark for many optimization...

P versus NP problem

problem in computer science If the solution to a problem is easy to check for correctness, must the problem be easy to solve? More unsolved problems in...

List of unsolved problems in mathematics

Many mathematical problems have been stated but not yet solved. These problems come from many areas of mathematics, such as theoretical physics, computer...

Alhazen's problem

Alhazen's problem is a mathematical problem in optics concerning reflection in a spherical mirror. It asks for the point in the mirror where one given...

User error (redirect from User problem)

savviness, asserting that problems arising when using a device are the fault of the user. Critics of the term argue that many problems are caused instead by...

Problem of evil

omnipotent, omniscient, and a wholly good god. Concerning the evidential problem, many theodicies have been proposed. One accepted theodicy is to appeal to...

Many-worlds interpretation

views time as a many-branched tree, wherein every possible quantum outcome is realized. This is intended to resolve the measurement problem and thus some...

Problem solving

consultants are largely problem solvers for issues that require technical skills and knowledge beyond general competence. Many businesses have found profitable...

Fermi problem

A Fermi problem (or Fermi question, Fermi quiz), also known as an order-of-magnitude problem, is an estimation problem in physics or engineering education...

Three-body problem

In physics, specifically classical mechanics, the three-body problem is to take the initial positions and velocities (or momenta) of three point masses...

Birthday problem

In probability theory, the birthday problem asks for the probability that, in a set of n randomly chosen people, at least two will share the same birthday...

Problem gambling

Problem gambling, ludopathy, or ludomania is repetitive gambling behavior despite harm and negative consequences. Problem gambling may be diagnosed as...

Scunthorpe problem

The Scunthorpe problem is the unintentional blocking of online content by a spam filter or search engine because their text contains a string (or substring)...

Dilip Joshi

role of a businessman Jethalal Champaklal Gada, who gets himself in many problems and troubles. The show originally broadcasts on the channel Sony SAB...

Inverse scattering problem

the inverse scattering problem is equivalent to a Riemann-Hilbert problem. Inverse scattering has been applied to many problems including radiolocation...
