## Old Possum's Book of Practical Cats

This classic book contains a lovely collection of poetry on cats originally written by T.S. Elliot for his godchildren and friends, and the loveable felines featured in this book were the basis for the well-known and extremely popular musical 'Cats'. This book would make an excellent addition to the bookshelf of any home. Many of the earliest books, particularly those dating back to the 1900s and before, are now extremely scarce and increasingly expensive. We are republishing these classic works in affordable, high quality, modern editions, using the original text and artwork.

## There are Cats in this Book

When did you last play with cats ... inside a BOOK?! The cats in this book want to have fun, and by turning the pages and flipping the flaps YOU can play their favourite games with them! Tiny, Moonpie and Andre love wool to tangle with, cardboard boxes to hide in, pillow fights ... and fish! But where there are fish, there is also water -lots of it. So who's going to rescue the cats from the giant floodwave? You are, of course!

## The Wild Cat Book

Cat experts Fiona and Mel Sunquist present comprehensive entries for each of the thirty-seven cat species that include color distribution maps and up-to-date information related to the species' IUCN conservation and management statuses, while their informative sidebars reveal why male lions have manes (and why dark manes are sexiest), how cats see with their whiskers, the truth behind our obsession with white lions and tigers, and why cats can't be vegetarians. The Wild Cat Book also highlights the grave threats faced by the world's wild cats--from habitat destruction to human persecution.

## Cats & Books

A treat for bibliophiles and cat lovers combined! This charming photo book of precious kitties with books from the popular Instagram hashtag, #CatsandBooks, is a crowd-sourced effort from various owners of both discerning cats and book taste. Showcasing all the charisma and amusing quirks of the wide world of cats, from the US to Africa, France, Brazil, and places far and wide, Cats & Books features cats begging for their owner's love and attention on top of favorite books, bookshelves, and various bookish environments. From long-haired, snowy white ragdolls to short-haired orange tabbies, there are many types of cats for everyone to love and find a favorite, if that's even possible! See the furry companions lounging comfortably on a bookshelf and walking around a bookstore, as if looking for their next book to read. Learn fun and cute facts about the featured felines, like how a rescue found their forever home or how one cat's favorite treat is ice cream. Cat owners and enthusiasts won't be able to stop themselves from falling in love with each adorable and playful cat they encounter on every page. This is the perfect gift for feline and book lovers alike. It will have fans laughing with joy while also perhaps finding a new book to read!

## **A Unified Theory of Cats on the Internet**

This cultural history reveals how cats became the undisputed mascot of the internet—"an essential look at life online" (Ryan Milner, author of *The World Made Meme*). Journalists and their readers seem to need no explanation for the line, "The internet is made of cats." Everyone understands the joke, but few know how it started. *A Unified Theory of Cats on the Internet* is the first book to explore the history of how the cat became the internet's best friend. Internet cats can differ in dramatic ways, from the goth cats of Twitter to the glamourpusses of Instagram to the giddy, nonsensical silliness of Nyan Cat. But they all share common traits and values. Bringing together fun anecdotes, thoughtful analyses, and hidden histories of the communities that built the internet, Elyse White shows how japonisme, punk culture, cute culture, and the battle among different communities for the soul of the internet informed the sensibility of online felines. Internet cats offer a playful and useful way to understand how culture shapes—and is shaped by—technology. Western culture has used cats for centuries as symbols of darkness, pathos, and alienation. The communities that helped build the internet represented themselves as outsiders, with snark and alienation at the core of their identity. Thus cats became the *sine qua non* of cultural literacy for the Extremely Online, as well as an everyday medium of expression for the rest of us. Whatever direction the internet takes next, the "series of tubes" is likely to remain cat-shaped.

## **The Cat and the Human Imagination**

An intelligent, amusing, and affectionate look at cats in history, literature, and art

## **Crooked Cats**

Big cats - tigers, leopards and lions - that make prey of humans are commonly known as 'man-eaters'. Anthropologist Nayanika Mathur reconceptualizes them as cats that have gone off the straight path to become 'crooked'. Building upon fifteen years of research in India, *Crooked Cats* moves beyond both colonial and conservationist accounts to place crooked cats at the centre of the question of how we are to comprehend a planet in crisis. There are many theories on why and how a big cat comes to prey on humans, with ecological collapse emerging as a central factor. The book explores these in detail to offer new insights into the governance of nonhuman animals and their entanglements with humans. Weaving together 'beastly tales' spun from encounters with big cats, Mathur deepens our understanding of the causes, consequences and conceptualization of the climate crisis.

## **Catology**

Catology explores the bizarre and very funny world of feline science. Vital questions answered include: Why do cats have a secret second nose? Why don't cats fart (but dogs do)? Do cats feel guilt, love, happiness or jealousy? Why are cats' tongues covered in microscopic hooks? Do cats always land on their feet? Why are cats so scared of cucumbers? Why do cats purr both when happy and when distressed? How do you interpret cat language? Packed with fascinating facts, quirky scientific revelations and weird stories about our furry friends, Catology offers a secret glimpse inside the feline body and mind.

## **Cats are Cats**

Miss Bell's new kitten turns out to be a tiger! But cats are cats, and she loves him all the same. This Level D book is perfect for new readers. One day Miss Bell bought a tiny kitten she named Tiger. He had stripes like a tiger, a tail like a tiger, and a smile like a tiger. He was very cute, and she loved him a lot. But Tiger got bigger. . . and kept getting bigger . . . Exuberant watercolor illustrations chronicle the transformation of Tiger from tiny kitten to giant jungle beast and his doting owner's efforts to accommodate his \"growing\" needs--no matter what the neighbors think-- in this funny, warmhearted celebration of unconditional love. The award-winning I Like to Read® series focuses on guided reading levels A through G, based upon Fountas and Pinnell standards. Acclaimed author-illustrators--including winners of Caldecott, Theodor Seuss Geisel, and Coretta Scott King honors—create original, high quality illustrations that support comprehension of simple text and are fun for kids to read with parents, teachers, or on their own! Level D, for late kindergarten, features longer sentences and greater variety in sentence structure than levels A, B, and C. May include questions. When Level D is mastered, follow up with Level E.

## **The Complete Cat Breed Book**

A “fun, fanciful, and even informative” history of felines as revealed by a very learned tabby with a knack for hunting down facts (People). Since the dawn of civilization, felines have prowled alongside mankind as they expanded their territory and spread the myth of human greatness. And today, cats are peddled on social media as silly creatures here to amuse humans with their antics. But this is an absurd, self-centered fantasy. The true history of felines is one of heroism, love, tragedy, sacrifice, and gravitas. Not entirely convinced? Well, get ready, because Baba the Cat is here to set the record straight. Spanning almost every continent and thousands—yes, thousands—of years, Baba’s complex story of feline survival presents readers with a diverse cast of cats long forgotten: from her prehistoric feline ancestors and the ancient Egyptian cat goddess Bastet to the daring mariners at the height of oceanic discovery, key intellectuals in the Enlightenment period, revered heroes from World Wars I and II, and the infamous American tabbies. Baba, a talented model in addition to a scholar, goes beyond surface-level scratches, pairing her freshly unearthed research with a series of stunning costume portraits to bring history to life. A paws-on journey through the feline hall of fame, with in-depth research and four-legged testaments that will make you rethink who defines history, A Cat’s Tale is a one-of-a-kind chronicle that introduces readers to the illustrious ancestors of their closest companions and shows, once and for all, that cats know exactly what they’re doing. “Almost certainly the most unique cat history book ever published.” —Smithsonian Magazine

## **Cat Secrets**

There are several 'blockbuster' veterinary textbooks on the market, the biggest competitor being Ettinger's Textbook of Veterinary Internal Medicine Expert Consult, 8E (2 volumes). However, this book is more practical and accessible, with a great percentage of high quality illustrations. Our problem-based approach is ideal for beginners and even intermediate students. Very few veterinary textbooks have such a rich emphasis on photographs: the endoscopic and radiographic, CT and MRI images are particularly impressive. The inclusion of sections on approach to thoracic and abdominal radiographs are unique and encourage an integrated learning approach. Case examples add to the book's practical USP.

## **Current Techniques in Small Animal Surgery, Fifth Edition**

Some 2300 references to scientific books, journal articles, and miscellaneous publications about the domestic cat. Also includes some foreign-language citations. Both retrospective and current. Entries include abstract numbers, bibliographical information, and abstracts that vary in length. Author, subject (descriptors) indexes.

Give your best friend more purr and pounce with this whiskers-to-tail guide to the good life! One reason we're wild for cats is that our cats are still wild at heart. On our laps, they're purring lovebugs, but on the prowl, they're fearsome hunters—with territorial instincts to match. The Handbook for a Happy Cat takes us inside the feline mind to decode what our cats really want in life and how they try to tell us. You'll learn: Why a bigger water bowl does away with "whisker stress" How to move like a mouse for maximum fun at playtime Skills to teach your kitten for a lifetime of easy vet visits, grooming, and more Subtle signs of stress such as excessive scent-marking and lip-licking How to tell frolic from fighting in the multi-cat household (and how to give frenemies a fresh start) What makes a scratching post so tempting that your sofa will be spared How to reassure a spooked cat with the "slow blink" Why it's pointless to "punish" a cat—but training is possible! Certified behaviorist Liesbeth Puts traces every feline mystery to cats' natural behavior and needs. A happy cat is a cat who can be herself!
